		Sleep 0.45W
		On 19.5W

Unit: cm

Full HD LED monitor

The 1920 x 1080 resolution of this LED monitor delivers excellent detail, making it perfect for advanced HD productivity and multimedia applications. LED monitors also consume less power and last longer than those with CCFL lamps. In addition, this monitor is mercury-free, making it safer for you and the environment.

10-point multi-touch

10-point multi-touch is a significant improvement on traditional two-finger multi-touch because it senses 10 different touch positions on the screen, and thus allows you to pinch-to-zoom, rotate images, and scroll through webpages.

Tilt back to horizontal

This touchscreen monitor is designed to tilt back all the way until it lies flat. This means you can quickly adjust it to any tilting angle that would be most comfortable for your height and position – whether you're sitting down or standing up.

Wide viewing angle

VA monitor provides great viewing angle that any position can receive the similar and spectacular visual experiences. Also, it presents the vivid pictures with perfect color performance for a comfortable and enjoyable viewing experience.

About Acer

Established in 1976, Acer is an information and communication technology company dedicated to the research, design, marketing, sale and support of innovative products that enhance people's lives. Acer's green supply chain delivers environmentally friendly PCs, displays, projectors, servers, tablets and smartphones — tools our customers need to explore beyond limits and experience more. Ranked No. 3 for notebooks globally (IDC 2012), Acer employs 8,000 people, and 2011 revenues reached US\$15.7 billion. Please visit www.acer.com for more information.
