

Creative Sound Blaster FRee

Multifunction Portable *Bluetooth*® Speaker

Sound that Surrounds You, All Around

Start your own party and raise the speaker upright to enjoy 360-degree sound all around. You can still enjoy big sound with a small footprint anywhere without marring the look of your space.

Widen Your Soundstage

Make your workspace your personal haven. Lay it flat on your desk to allow for an accurate stereo separation. Experience a wide, open soundstage that creates a truly immersive sound to stay productive all day. Now, who says you can't mix business with pleasure?

Hear that Boom Boom Pow

With dual passive radiators on each side, you have enough oomph for your music to impress your friends! Plus, the speaker automatically adjusts the EQ so you get the best out of your music from the Sound Blaster FRee. Your music sounds so good, you can hardly believe your ears.

Let's Get Loud

Want to turn heads wherever you go? Press the LOUD button to boost the volume and spaciousness of your music, for sheer enjoyment. Feel the unique spatiality of your music groove in action!

WATER-RESISTANT

The Sound Blaster FRee's IPX4-certified splash proof design is ideal for enjoying your music without getting it wet. Water splashes from any direction will not come between you and music, spoiling all that fun for you!

CONNECTIVITY

Life's great when you can enjoy audio without fretting over the depletion of your phone's battery life.

Sound Blaster FRee's built-in MP3 player lets you play your music without pairing to an external source. With capacity support up to 32 GB, you'll have non-stop hits to keep you entertained for hours.

Two Devices, At Once!

When pairing with your phone, the Sound Blaster FRee supports Multi-point *Bluetooth* that allows up to two connections at once. This means your mobile device is ever ready to pair with the speaker!
