

# Creative EP-600m Earphone

## Noise-isolating In-ear Earphones with In-line Mic and Remote

Updated with an in-line microphone and one-button remote, the Creative EP-600m puts you in control over the way you listen to your music. No matter what listening experience you're after, the Creative EP-600m is a pair of superior noise-isolating earphones that deliver clear audio playback with dynamic bass.

## **Features**

### QUALITY AUDIO AND COMFORT IN A NEAT PACKAGE

Whatever music genres you're listening to, Creative EP-600m got you covered. The versatile performer delivers well-balanced audio playback from your smart devices. Experience clear and punchy bass performance powered by a pair of 10mm Neodymium drivers. The ergonomic in-ear design seals your ears from your surroundings to further enhance your listening pleasure. Got a phone call while you're immersed in your music? No worries. You can easily switch between your phone calls and music playback with one-button remote integrated along the tangle-free cable – all within your fingertips. Declare your own listening comfort with three pairs of soft silicone eartips to choose from. Available in three different sizes, S, M, L, pick the right size for your ears for a truly immersive audio experience beyond its price tag.

### Tuned to Perfection

Go ahead and gratify your ears with an incredible audio performance delivered by the powerful 10mm Neodymium drivers. Every texture and detail of your music comes alive with sonic boom, rewarding you with the clarity it deserves.

### Put Your World on Mute

Designed to let you focus on things that matter, the Creative EP-600m's superior noise-isolating in-ear design seals your ears from the world around you for maximum listening pleasure.

## One-button Convenience at Your Fingertips

With just one click of the one-button remote, you can control the volume, phone calls and music playback. You can switch between your smart devices at your convenience. It cannot get any easier than this.

## Getting the Right Fit

These soft silicone eartips are available in three sizes: S, M, L. Pick the right one that fits you best.
