

HPE ProLiant ML350 Gen10 Server

ProLiant ML Servers

What's new

- Support for Intel Xeon Scalable processors – full stack.
- 2600 MT/s HPE DDR4 SmartMemory RDIMM/LRDIMM offering 8, 16, 32, or 64 GB.
- Security through firmware and standard chassis features.
- Re-designed shorter chassis with multiple drive cage options for upgrade, including 8 SFF Express Bay to support NVMe solid state drives.

Overview

Do you need a robust server for your SMB and remote offices? HPE ProLiant ML350 Gen10 Server delivers a secure dual-socket tower server with performance, expandability, and proven reliability making it the choice for expanding SMBs, remote offices of larger businesses, and enterprise data centers. The HPE ML350 Gen10 Server leverages the Intel® Xeon® Scalable processors with up to 71%[1] performance gain and 27% increase in cores[2], plus the 2666 MT/s HPE DDR4 SmartMemory supports up to 3.0 TB[3] and 11%[4] faster than 2400 MT/s. The shorter re-designed rackable chassis with multiple upgrade options provides flexibility that can expand as your business

- Graphic process unit (GPU) support for graphic-intensive applications like Virtual Desktop Infrastructure (VDI) and machine learning.
- Build a fully functional server with ClearOS Software from HPE that is just right for you at no upfront cost. For more information, check the ClearOS link on the right.

needs grow. It supports 12 Gb/s SAS, NVMe SSD, embedded 4x1GbE NIC with a broad range of graphics and compute options. Supported by the HPE Pointnext industry-leading service organization and ease of deployment, the HPE ML350 Gen10 Server helps you transform to a digital business with more agility and all within your limited IT budget.

Features

Perform with Unmatched Versatility

The HPE ProLiant ML350 Gen10 Server supports up to two Intel Xeon Scalable processors, starting from Bronze thru Platinum, 4 cores expanding up to 28 core processors offering unparalleled performance.

Up to 24 DIMM slots to support the 2600 MT/s HPE DDR4 SmartMemory, reducing data loss and downtime with the HPE Gen10 technology licensed Fast Fault Tolerance feature while increasing workload performance and power efficiency.

It supports a wide range of solutions from Azure to Docker to ClearOS along with the traditional operating systems.

Graphic processing unit (GPU) expansion supports up to four units to accelerate performance in Virtual Desktop Infrastructure (VDI) applications and machine learning for financial services, surveillance and security, educational and scientific research, retail and medical imaging.

Expand When Your Business Needs Grow

The HPE ProLiant ML350 Gen10 Server delivers expandability with a wide range of drive upgrade options supporting 8 to 24 SFF or 16 SFF when mixed with optional 8 NVMe PCIe solid state drives, 4 to 12 LFF hot plug or non-hot plug drive options protecting your IT investment in hybrid environment.

Large expansion capacity with (8) PCIe slots, (6) USB ports, 5U rack conversion, and power supply options.

Embedded 4x1GbE and choice PCIe standup 1GbE, 10GbE or 25GbE adapters provide you flexibility of networking bandwidth and fabric so you can scale and adapt to different needs as your business grows.

Security Innovations

The HPE ProLiant ML350 Gen10 Server is part of the Hewlett Packard Enterprise offering of industry standard servers with major firmware anchored directly into the silicon security protection built in across the server lifecycle starting with Silicon Root of Trust.

Millions of lines of firmware code run before server operating system boots. With Runtime Firmware Validation, enabled by HPE iLO Advanced Premium Security Edition, the server firmware is checked every 24 hours verifying validity and credibility of essential system firmware.

Secure Recovery allows server firmware to roll back to the last, known-good state or factory settings after detection of compromised code.

Additional security options are available with Trusted Platform Module (TPM) to prevent unauthorized access to the server and to securely store artifacts used to

authenticate the server platforms while the Intrusion Detection kit logs and alerts when the server hood is removed.

Industry Leading Services and Ease of Deployment

The HPE ProLiant ML350 Gen10 Server comes with a complete set of HPE Technology Services, delivering confidence, reducing risk, and helping customers realize agility and stability.

HPE Pointnext Services simplifies all stages of the IT journey. Advisory and Transformation Services professionals understand customer challenges and design an optimal solution. Professional Services enable rapid deployment of solutions and Operational Services provide ongoing support.

Services provided under Operational Services include: Flexible Capacity, Datacenter Care, Infrastructure Automation, Campus Care, Proactive Services and Multi-vendor coverage.

HPE IT investment solutions help you transform to a digital business with IT economics that align to your business goals.

Technical specifications

HPE ProLiant ML350 Gen10 Server

Processor	Intel® Xeon® Scalable processors, 1 or 2, depending on model SKU
Processor family	Intel® Xeon® Scalable 8100 series Intel® Xeon® Scalable 6100 series Intel® Xeon® Scalable 5100 series Intel® Xeon® Scalable 4100 series Intel® Xeon® Scalable 3100 series
Processor core available	28 or 26 or 24 or 22 or 20 or 18 or 16 or 14 or 12 or 10 or 6 or 8 or 4, depending on model SKU
Processor cache	38.50 MB L3 - 8.25 MB L3, depending on model SKU
Processor speed	3.6 GHz, maximum depending on processor SKU
Power supply type	HPE Flexible Slot Redundant Power Supply modules 500W / 800W / 1600W, depending on model SKU, or HPE Standard 500W Non-Hot-Plug/non-RPS Power Supply
Expansion slots	8-slots (x16, x8, x16, x8, x16, x8, x16, x8) as standard in 2P model. For detail reference QuickSpecs.
Maximum memory	3.0 TB with 128 GB DDR4 DIMM [3]
Memory, standard	16 GB (1 x 16GB) RDIMM or depending on model SKU
Memory slots	24 DIMM slots
Memory type	HPE DDR4 SmartMemory
Memory protection features	Advanced ECC Memory Online Spare Mode Memory Lock Step Mode
Included hard drives	None Ship Standard
System fan features	Standard 2 fans, none-hot-plug Optional 4 additional fans, hot-plug and N+1 redundancy Reference QuickSpecs for config. detail.
Network controller	HPE Ethernet 1Gb 4-port 369i Adapter
Storage controller	1 HPE Smart Array S100i and/or 1 HPE Smart Array P408i-a and/or 1 HPE Smart Array E208i-a, depending on model SKU
Minimum dimensions (W x D x H)	46.25 (H) x 64.8 (D) x 17.4 (W) cm
Weight	21 kg
Infrastructure management	HPE iLO Standard with Intelligent Provisioning (embedded), HPE OneView Standard (requires download) (standard) HPE iLO Advanced, HPE iLO Advanced Premium Security Edition, and HPE OneView Advanced (optional)
Warranty	3/3/3 - Server Warranty includes three years of parts, three years of labor, three years of onsite support coverage. Additional information regarding worldwide limited warranty and technical support is available at: http://h20564.www2.hpe.com/hpsc/wc/public/home . Additional HPE support and service coverage for your product can be purchased locally. For information on availability of service upgrades and the cost for these service upgrades, refer to the HPE website at http://www.hpe.com/support

HPE Pointnext

HPE Pointnext leverages our breadth and depth of technical expertise and innovation to help to accelerate digital transformation. A comprehensive portfolio that includes—Advisory, Professional, and Operational Services is designed to help evolve and grow today and into the future.

Operational Services

- **HPE Datacenter Care** offers a tailored operational support solution built on core deliverables. It includes hardware and software support, a team of experts to help personalize deliverables and share best practices, as well as optional building blocks to address specific IT and business needs.
- **HPE Flexible Capacity** is a new consumption model to manage on-demand capacity, combining the agility and economics of public cloud with the security and performance of on-premises IT.
- **HPE Foundation Care** helps when there is a hardware or software problem offering several response levels dependent on IT and business requirements.
- **HPE Proactive Care** is an integrated set of hardware and software support including an enhanced call experience with start to finish case management helping resolve incidents quickly and keeping IT reliable and stable.

Advisory Services includes design, strategy, road map, and other services to help enable the digital transformation journey, tuned to IT and business needs. Advisory Services helps customers on their journey to Hybrid IT, Big Data, and the Intelligent Edge.

Professional Services helps integrate the new solution with project management, installation and startup, relocation services, and more. We help mitigate risk to the business so there is no interruption when new technology is being integrated in the existing IT environment.

**Hewlett Packard
Enterprise**

[1] Intel measurements. Up to 71% performance increase of Intel Xeon Platinum vs. previous generation E5 v4 average performance based on key industry-standard benchmark calculations comparing 2-socket Intel Xeon Platinum 8180 to E5-2699 v4 family processors. Any difference in system hardware or software design or configuration may affect actual performance. May 2017.

[2] Up to 27% performance increase of Intel Xeon Platinum vs. previous generation comparing 2-socket Intel Xeon Platinum 8180 (28 cores) to E5-2699 v4 (22 cores). Calculation 28 cores/22 cores = 1.27 = 27%. May 2017.

[3] 128GB coming in 2H 2017.

[4] The Gen10 2666 MT/s memory speed is 11% faster than that of Gen9 2400 MT/s, enabling faster server performance.
