- Stores up to 100GB on a BDXL Disc / 8.5GB on a double layer DVD / up to 4.7GB on a standard DVD

Product Summary

Blu-ray discs are fast becoming known as the best products to archive valuable data on, with their 'future-proof' format, wide range compatibility, high capacity and their extremely long product life when compared to HDDs and magnetic tapes. Unfortunately more and more notebook vendors choose to leave the optical drive out of their notebooks in favour of slim designs. Verbatim has the solution with the External Slimline Blu-ray Writer.

This little device is what you need if you own a notebook, ultrabook or netbook or other device that does not include a Blu-ray Writer. Use it to create a back-up of all the important files that you don't want to lose, family pictures, videos, accounting documents etc.

The Verbatim External Slimline Blu-ray Writer is USB powered so no power adapter is needed. It is barely larger than a Blu-ray disc itself, so it is easy to transport, meaning you never have to go anywhere without it!
The drive comes with Nero Burn and Archive software* for seamless archiving, and reliable secure disc burns.*Nero Burn & Archive is only suitable for PC

Product Part Number: 43887

System Requirements

PC: Intel Pentium III / AMD Duron 900MHz or higher, 512MB RAM or higher, available USB port, Windows XP/Vista/7/8/10

MAC: Intel Mac, 512MB RAM or higher, available USB port, Mac OS X 10.6 or higher

Product Specification

Product Dimensions: 145mm x 133mm x 11mm (L x W x D)
Product Weight: 215grams

Pack Contents:

- External Slimline Blu-ray Writer
- USB 3.0 Cable
- Nero Burn & Archive Software on CD
- Manual on CD
- Quick Installation Guide
