

MediaShare Wireless

Wireless streaming device for your tablet or Smartphone!

Imagine infinite storage capacity and live video/audio streaming for your tablet or smartphone...too good to be true? Not anymore. Verbatim's new MediaShare Wireless device, allows you to do just that. How does it work? MediaShare allows you to stream media to your tablet/smartphone from portable storage media, such as SD cards, USB drives or portable HDDs (media not included) via a secure, wireless connection, wherever you are! Even better, up to 5 users can access and share stored content - simultaneously!

For maximum mobility, the MediaShare Wireless has a built-in rechargeable battery, with an approximate battery life up to 9 hours*. To recharge, simply connect the device to any available USB port on your computer. MediaShare Wireless allows you access to your media while charging, so your entertainment or productivity is uninterrupted.

Similar devices are limited by built-in storage capacities, or inability to upload and download information from your tablet/smartphone to your media storage but the Verbatim MediaShare Wireless allows for simultaneous upload, download and streaming! Also, because it utilizes removable media, you'll never run out of space. MediaShare Wireless is the solution for wireless media streaming for anyone on the go.

Verbatim #98243

MediaShare Wireless is perfect for:

- **Tablet/Smartphone users:** Access and enjoy unlimited content on removable media without running out of memory on your mobile device.
- **Families:** No more fighting over which movie to watch in the car on the family vacation. With MediaShare Wireless, up to 5 users can access stored content - at the same time!
- **Business Travelers:** Working on a multi-component presentation while on the road with all the data is stored on one portable HDD? No need to tie up space on your laptop, co-workers can access whatever data they need simultaneously with MediaShare Wireless.
- **Travelers:** Cross-country flight? Variety is key to pass the time. Use MediaShare Wireless to ensure you are covered for in-flight entertainment, there and back.

MediaShare Wireless

Wireless streaming device for your tablet or Smartphone!
